

LIGHTING CONTROL

FULLY UPGRADABLE FROM STANDALONE TO IOT

Autani offers three upgradeable tiers. Unlike many IoT solutions, Autani is designed to scale up without having to change hardware.

- **Autani Lite** is a room-based lighting control solution; it is easy to install and affordable.
- **Autani Linked** is a networked control solution which offers additional functionality such as: advanced scheduling, reporting, metering, and building management integration.
- **Autani Insights** is our most advanced offering, providing valuable data insights into a single building or a portfolio of buildings. Here we offer asset tracking, campus-wide wayfinding, 3D facility monitoring and more.

Whichever tier of product you decide on, you will be outfitting your facility with a truly future-proofed solution complete with a powerful upgrade path available when needed.

Standalone Controls

Motion & Switch Grouping

Daylight Harvesting

Scheduled Lighting

Occupancy/Vacancy Detection

Our easiest & most affordable solution ever:

- Cost effective
- Easy to deploy
- Easy to use
- Upgrade to Networked Controls when you're ready

Code Compliant out-of-the-box

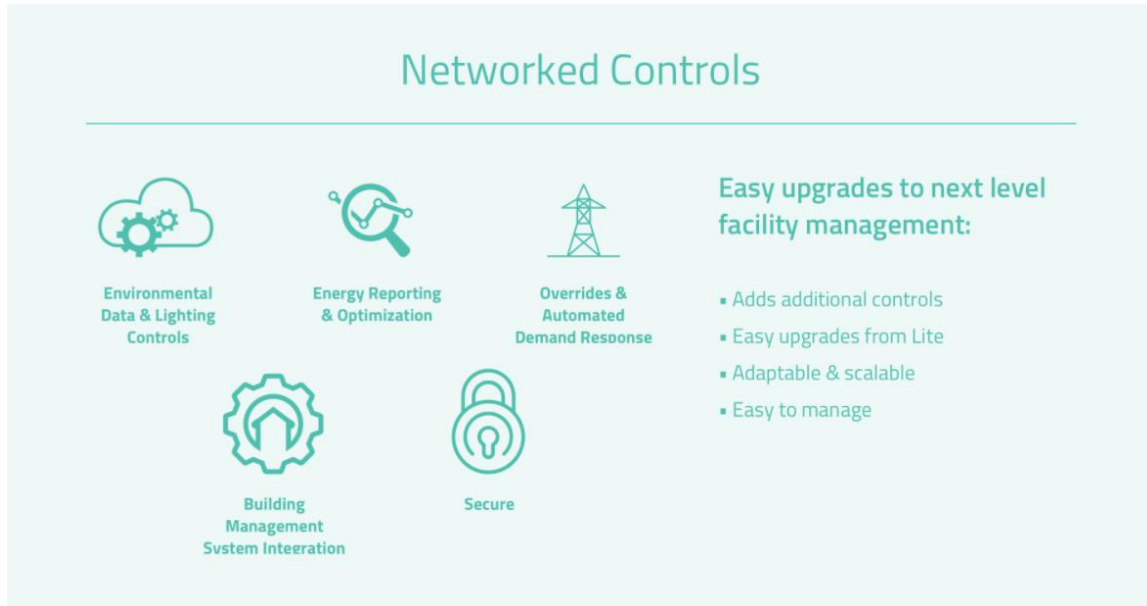

Cost Effective Solution

Manual Override Control

The Autani Linked platform provides many upgrades and communicates across numerous protocols.

Additional Features

- Task Tuning and High-end Trimming
- Low Energy Bluetooth (Sensor Dependent)
- ADR (Automatic Demand Response)
- DR (Demand Reduction)
- Occupancy Controlled Receptacles
- BMS / BAS Integration - BTL Certified
- Energy Savings Report
- Non-biased data!
- Tunable White / Human Centric
- Stability Controlled Daylight Harvesting and Groupings
- Time-of-Day Dimming Schedule
- Dim-and-Linger Occupancy Control
- Follow-Me Lighting Effect
- Smart Occupancy Reaction
- Personalized Settings and Control
- Fixture, Sensor, Radio Outage Reports

Autani Linked communicates across a wide ecosystem of protocols.

The Autani Insights platform provides an easy-to-use yet powerful look into building performance, health, and more.
